Diversity Values statement

We believe that the diversity of the UK's population is one of the country's greatest strengths. Our aim is for the European Movement to reflect that diversity at all levels of our supporter, membership, and activist base so we are a stronger organisation with roots across all of society. Doing this is an important part of delivering our mission to reverse the calamity of Brexit and win the Battle for the Soul of our Country by shifting public opinion.

We are committed to ensuring people are treated fairly and that no one should face discrimination because of their differences, such as age, disability, ethnicity, gender, gender identity and expression, religion, or sexual orientation.

We will do this by putting training in place, reflecting the whole of society in our communications, by seeking to raise our own awareness, by listening and by putting equality, inclusivity, and belonging at the heart of all that we do.

This is about who we are, what we stand for and what we won't stand for.
